

CC - 1000

BASE COAT ADHESIVE
FOR ARCHITECTURAL MOLDINGS

Description:

CC-1000 is a specially formulated, ultra lightweight, cement based, polymer-modified, dry powder material with increased flexibility and durability. Ideal for the production of pre-coated moldings.

Application:

Ensure molding is undamaged, clean, dry and adhesive fiberglass mesh has been applied throughout. Correct any bulging or inconsistencies in the mesh. Using an electric mixer with a clean paddle, mix adding potable water until desired consistency for optimal workability. Spread CC-1000 uniformly over the molding, removing all excess. Allow to cure in a warm, dry environment away from direct sunlight for at least 24 hours.

Packaging:

2,000 lb. (907 kg) SuperSaks
50 lb. (22.6 kg) bags, 56 bags to a skid

Shelf Life: 12 months if properly stored

Storage: Store in a cool, dry area above ground. Avoid direct sunlight and high temperatures surpassing 100°F (38°C)

Coverage: 90-100 ft²/50 lbs.
